

INVENTABLES **AIRPLANT HOLDER** **INSTRUCTIONS**

April 13, 2016

AIR PLANT HOLDER

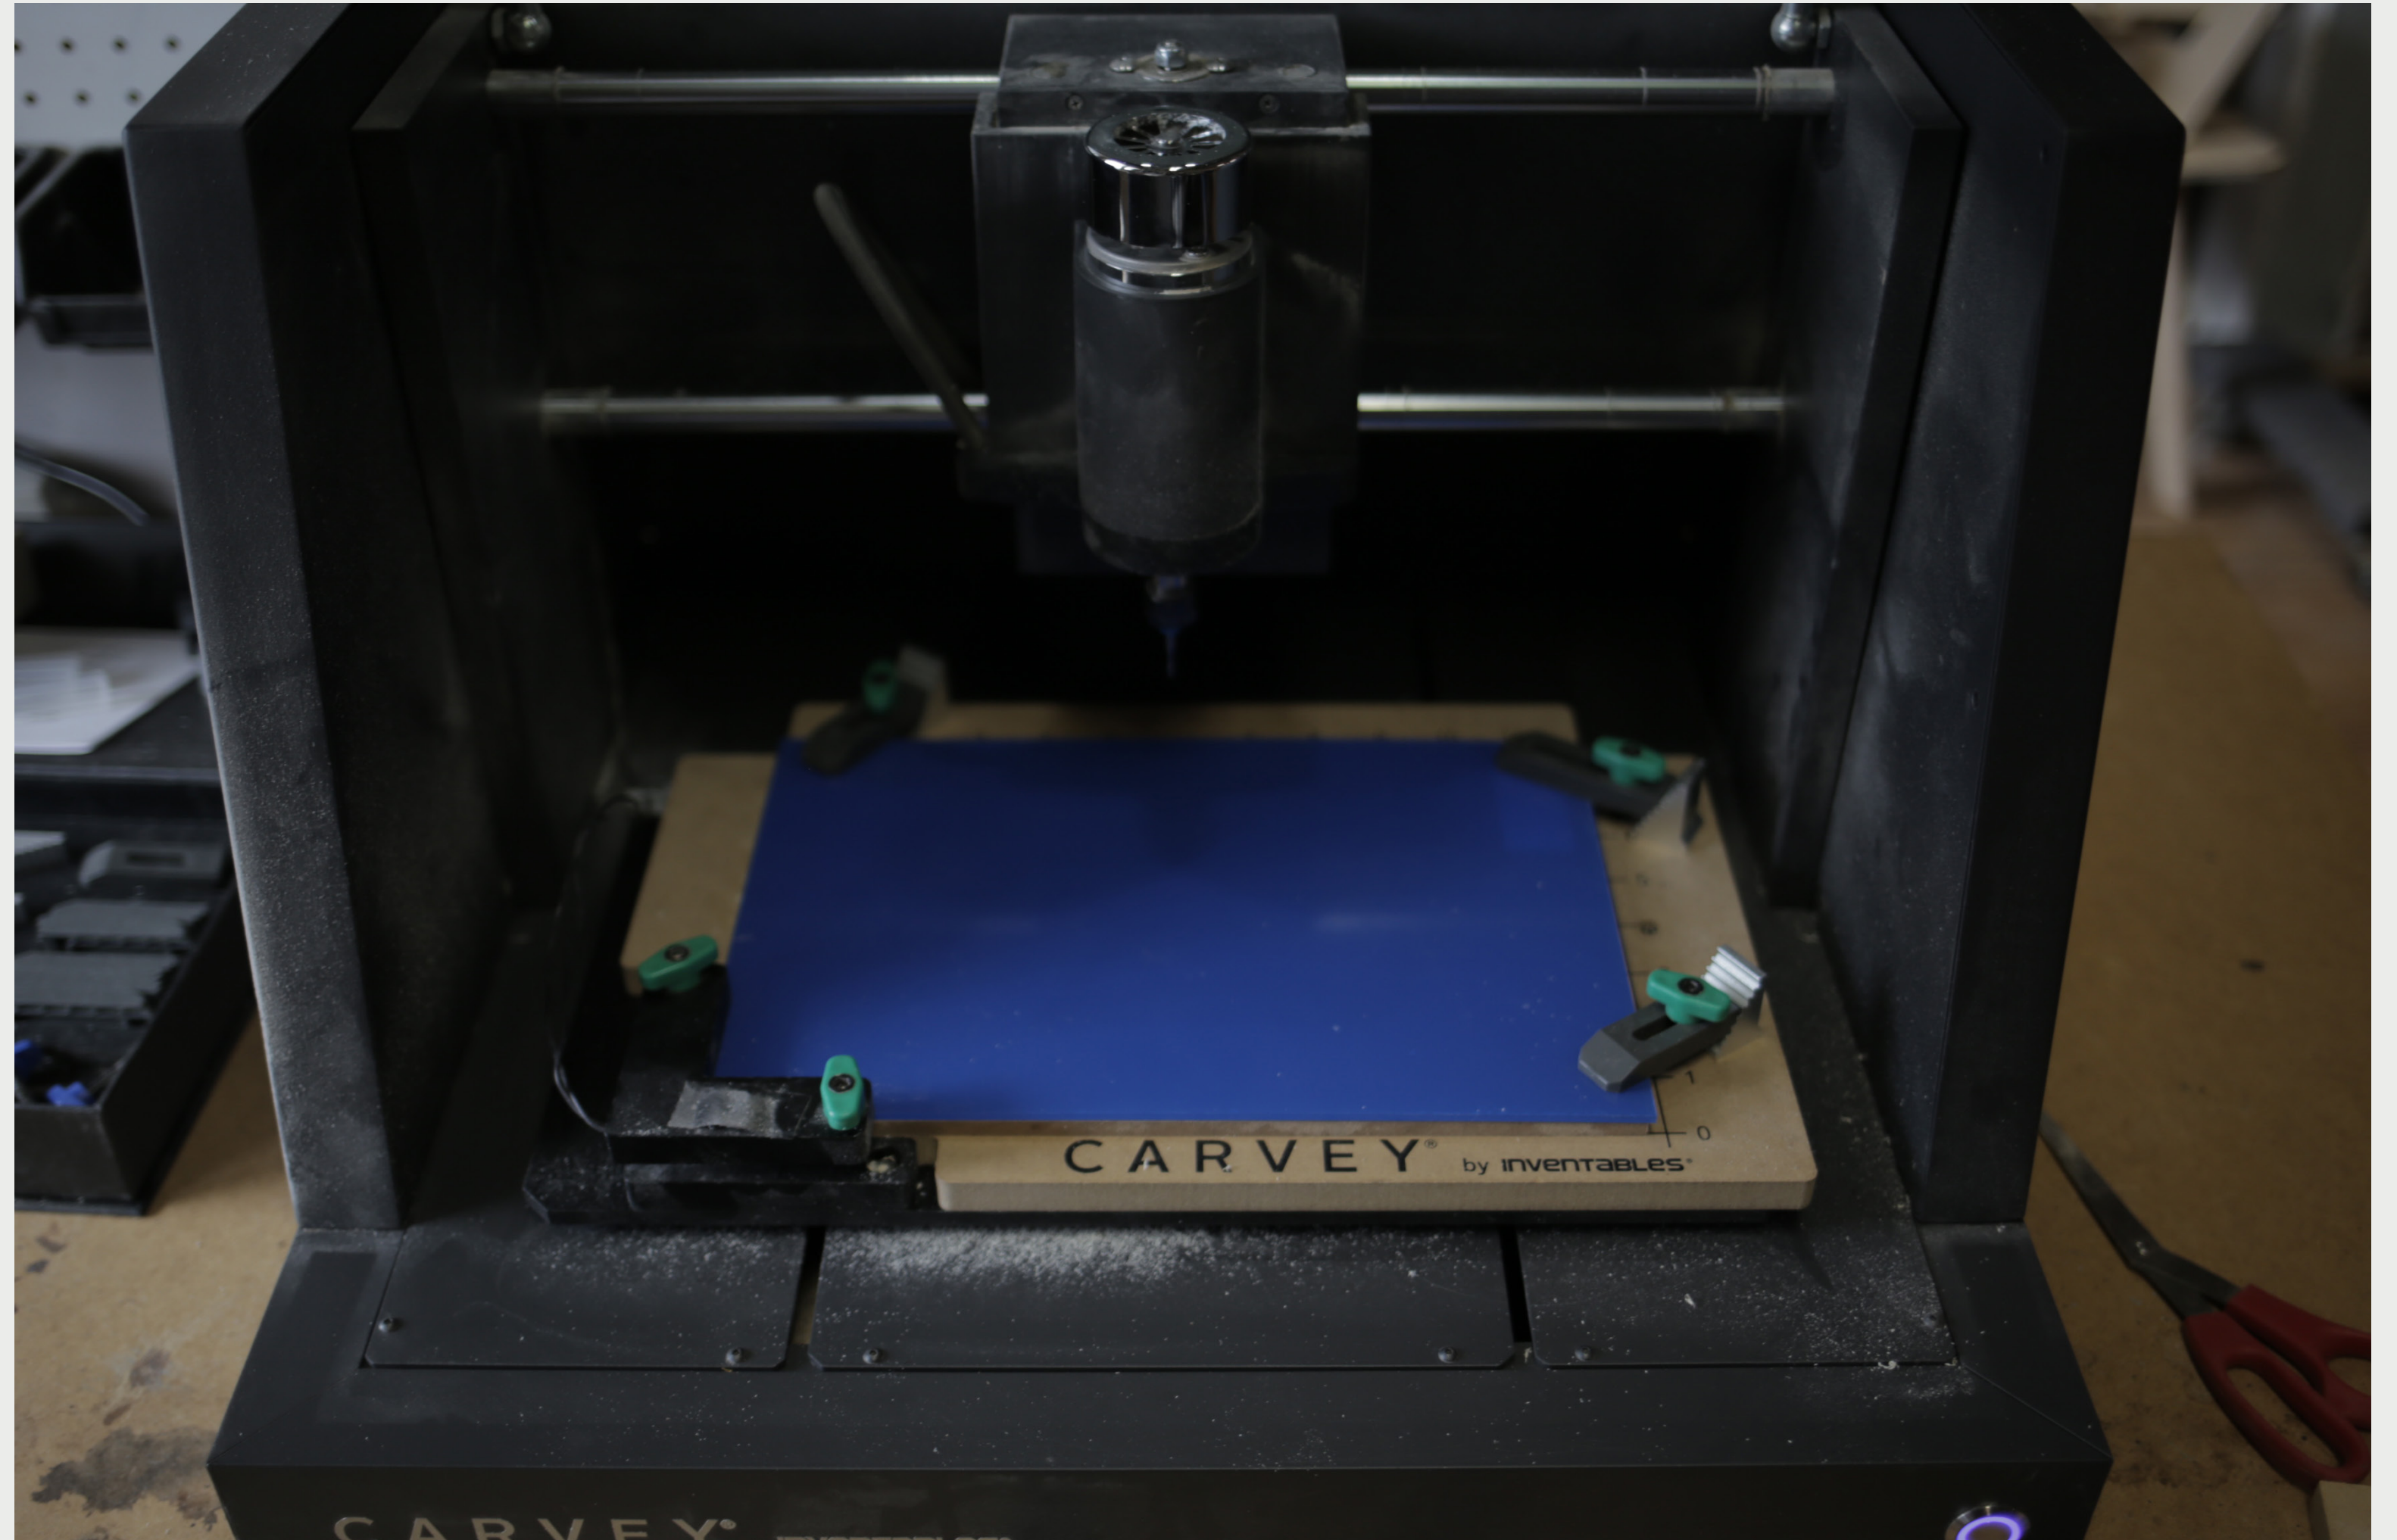

Final product

AIR PLANT HOLDER

Layout

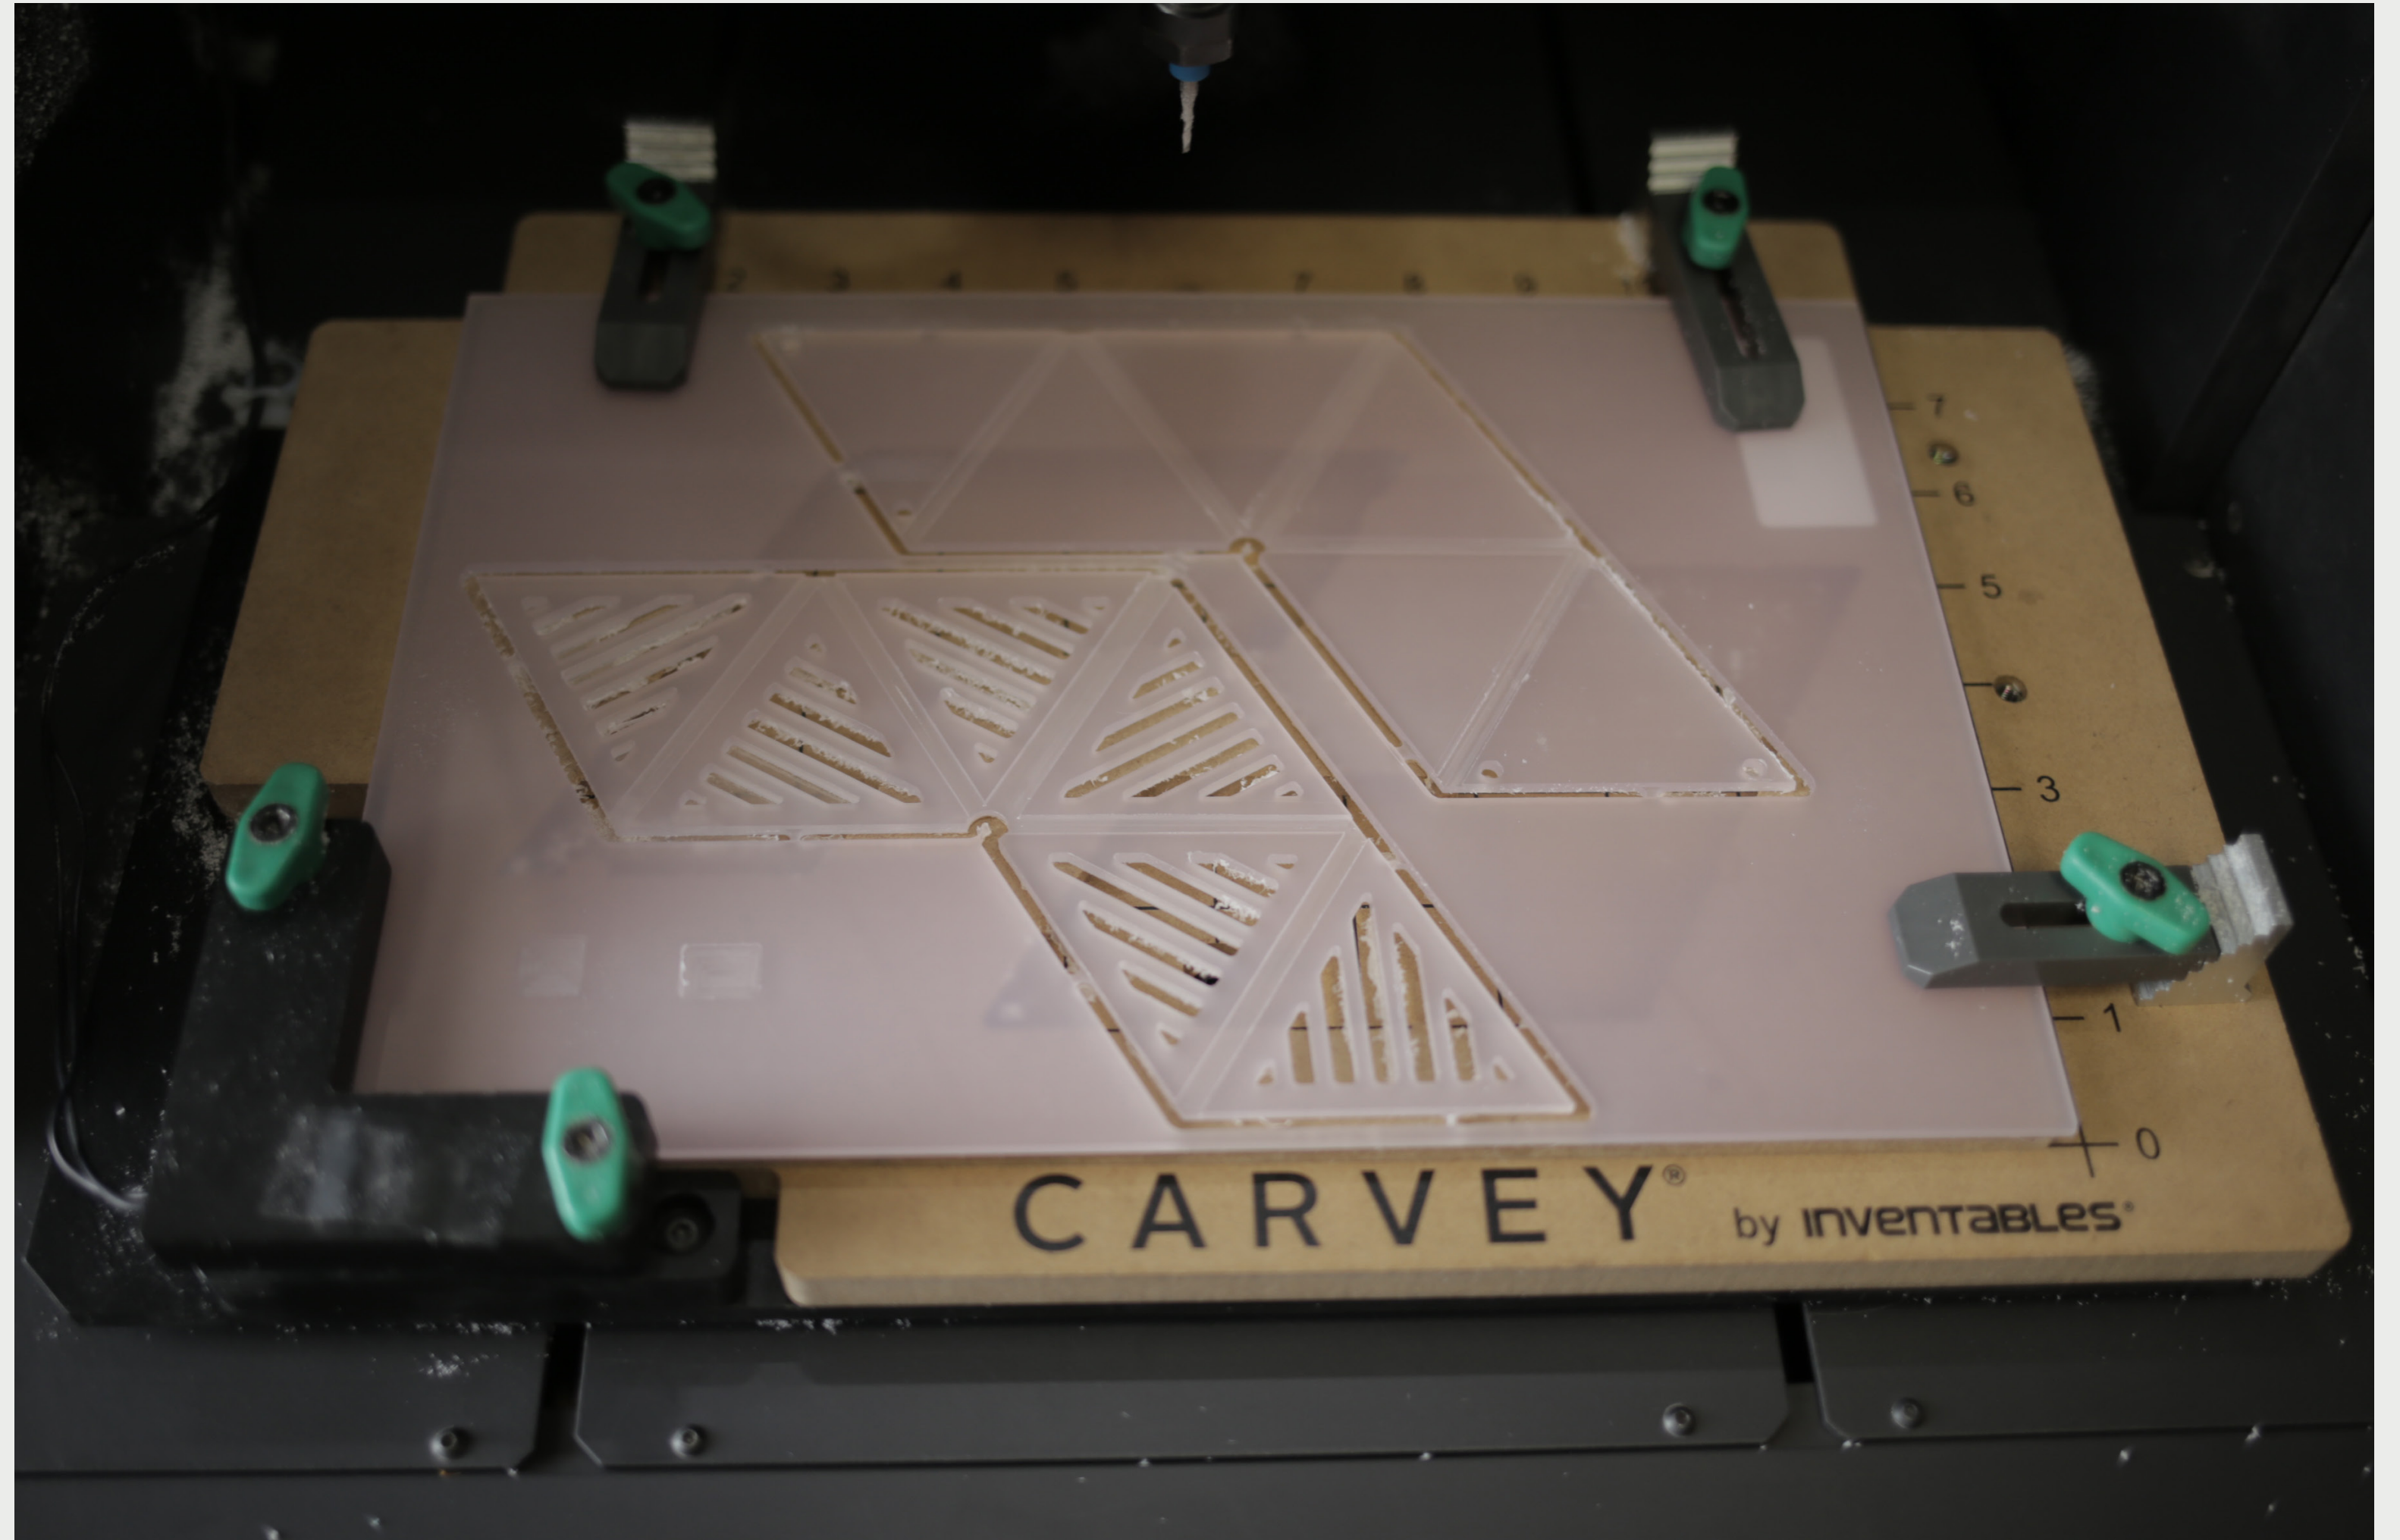

Lay out the acrylic on the carvey and clamp it down.

AIR PLANT HOLDER

Layout

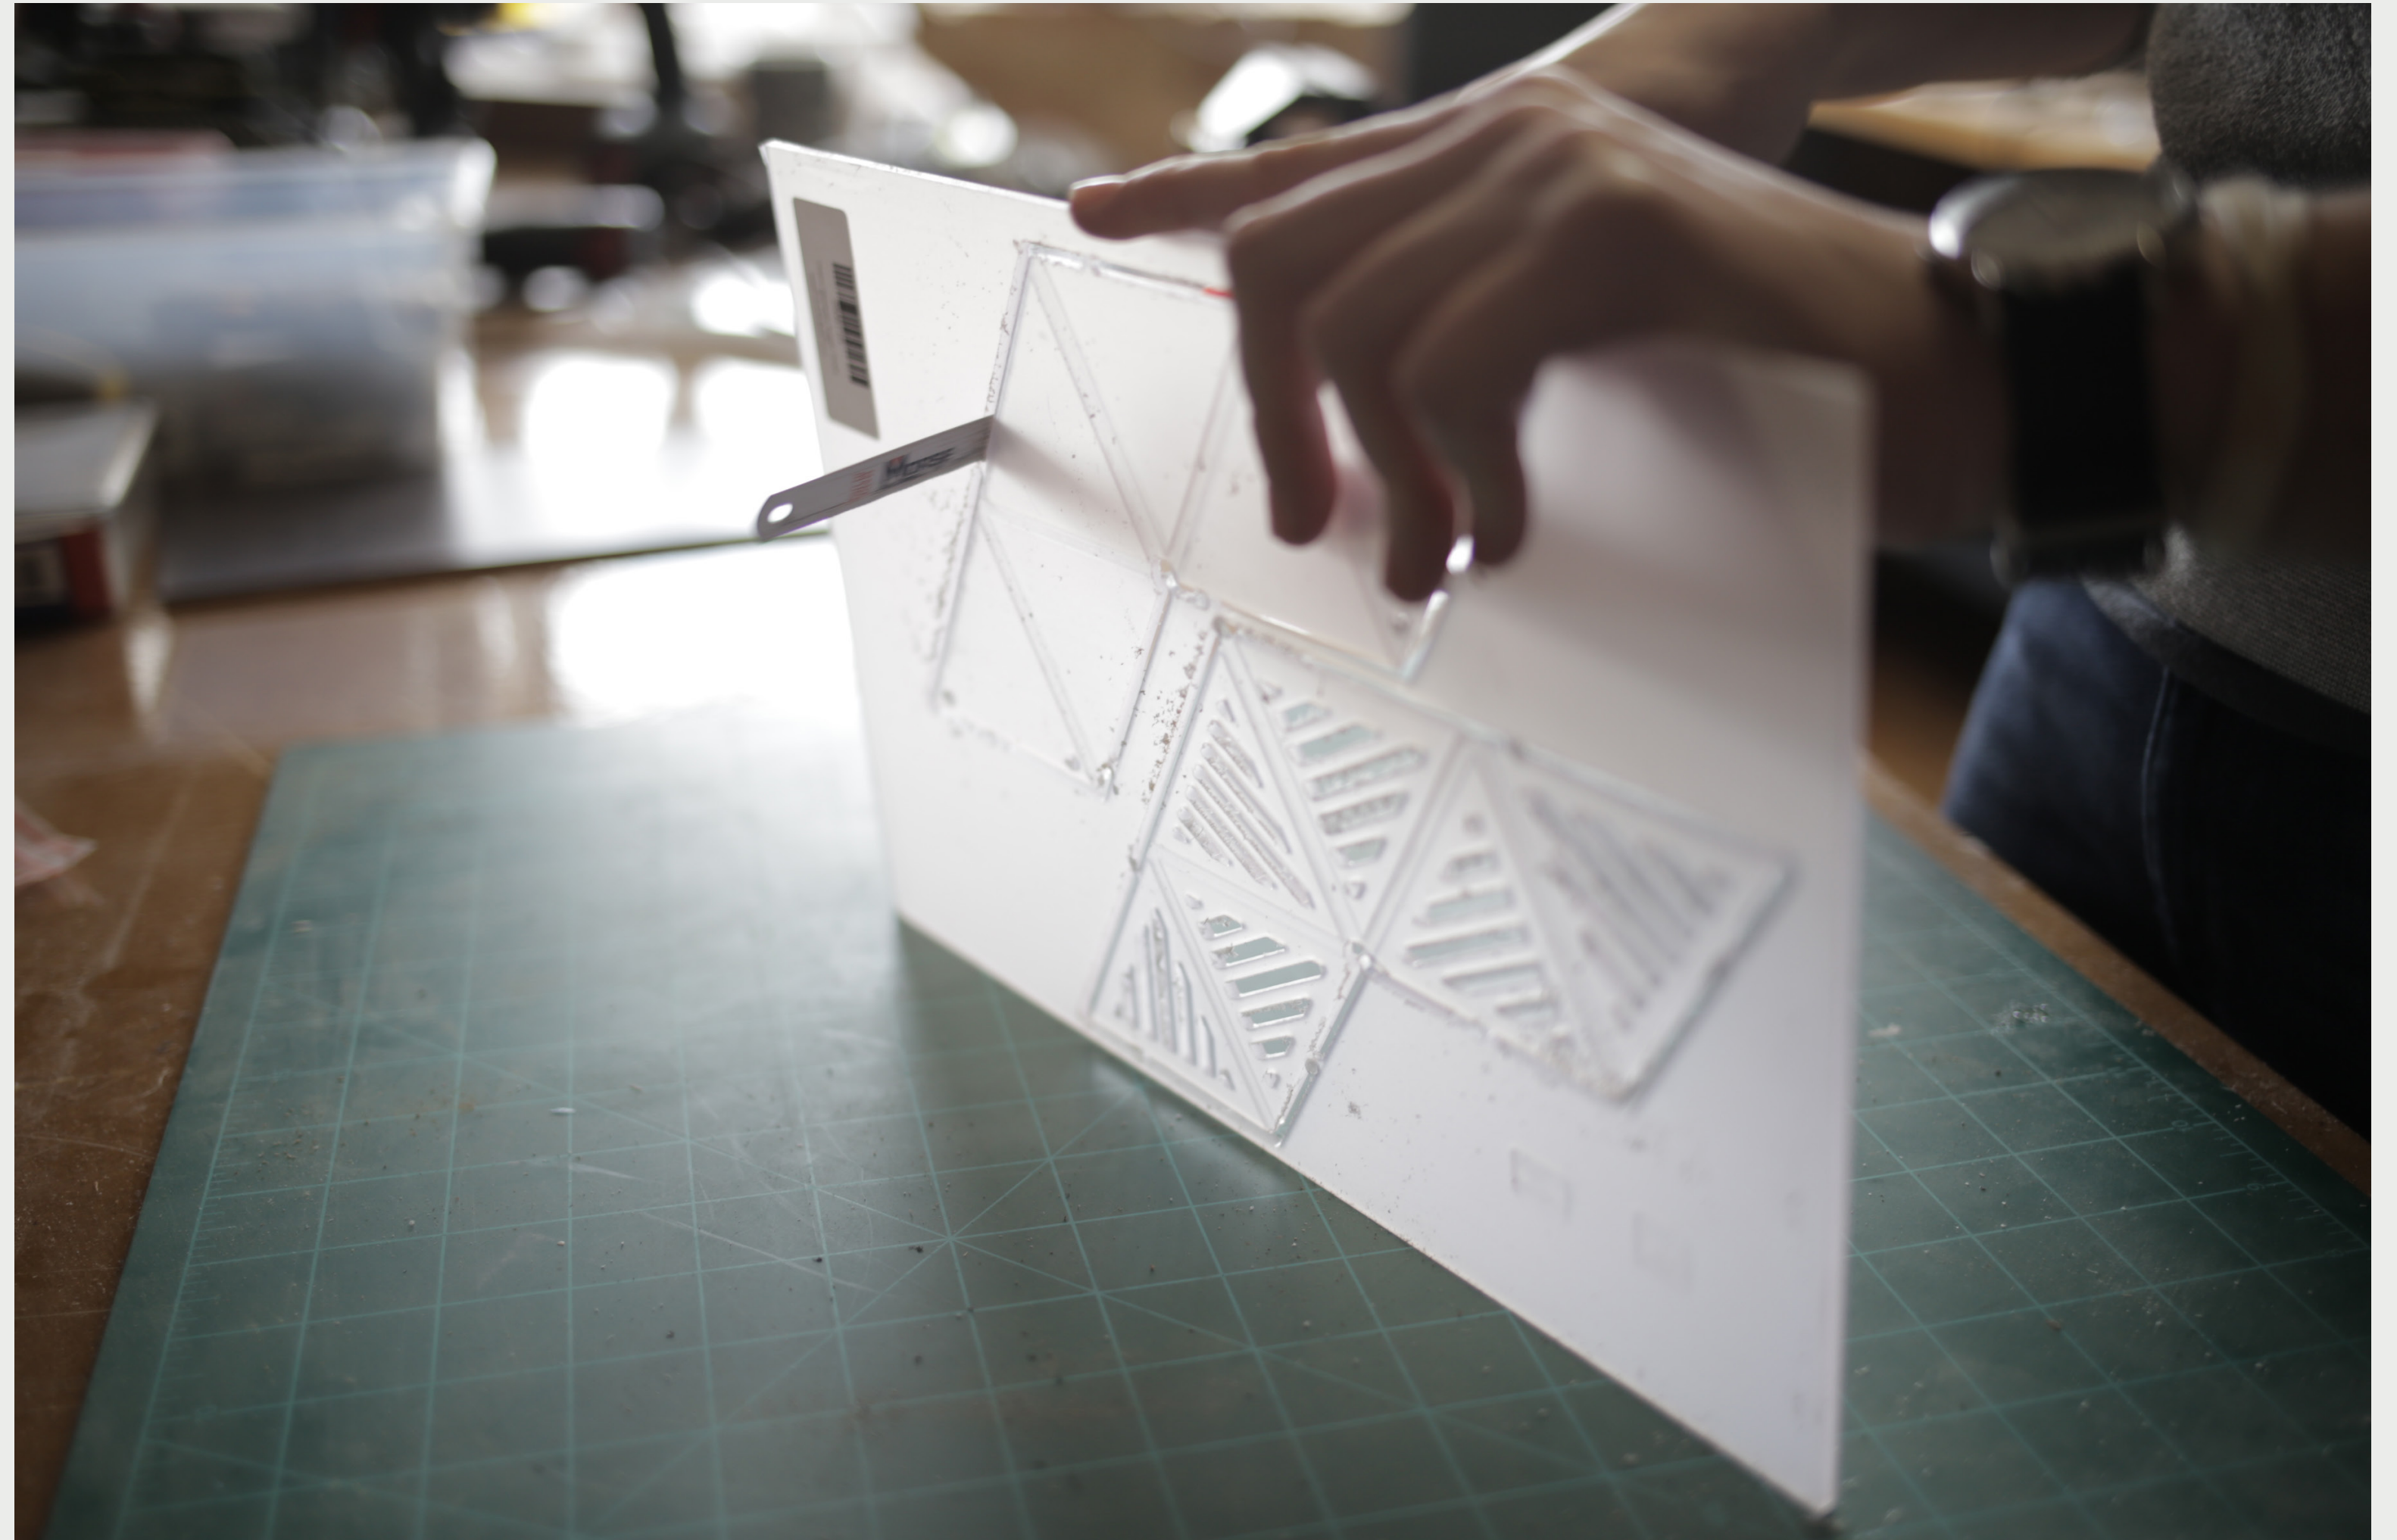

Run program

AIR PLANT HOLDER

Cut

Use a small saw to remove holder from main material

AIR PLANT HOLDER

Bend

Using a heat gun slowly heat and bend the joints of the holder. The joints will heat up faster than the main body and should be easy to move.

AIR PLANT HOLDER

Selection

Pick and choose your perfect air plants or succulents.

AIR PLANT HOLDER

Assemble

Using hanging material of choice, make a knot to anchor and thread strand through the bottom. Use several smaller pieces to fasten.

AIR PLANT HOLDER
